

Payroll Cards

At Camp Hazen YMCA, you will be paid every two weeks for the work you perform. To ensure you can receive your wages easily and securely, you will need a way to receive direct deposits of your payroll funds.

Camp Hazen YMCA would like each of our international staff to arrive with a means of direct deposit (transfer from our bank directly to yours on payroll day) for payroll. If you already have one of these accounts, or an account with another company that provides **US bank routing and account information**, there is no need to open a new account. However, if you do not currently have a means for direct deposit, please set up an account prior to your arrival.

While we do not recommend or endorse any specific company, our research and feedback from previous international staff indicate that the companies listed below offer services that allow J-1 visa holders to receive payroll through direct deposit. These services typically provide a debit card and mobile app that allow you to access your earnings while in the United States.

With these cards, you can generally use your funds to make purchases at stores and restaurants, book travel, withdraw cash from ATMs, and in many cases transfer money within the app to other currencies to pay bills or send money to individuals in your home country.

Please carefully review the information provided by each company, confirm that you meet their eligibility requirements, and determine which option works best for you. It is also important to verify that the card and services will work in your home country before choosing one.

Allow at least 4 weeks to create an account and get your debit card before arriving in the US.
